

THE CIVIL GUARD OF ARAGÓN WARNS ABOUT THE POOR STATE OF THE ANETO GLACIER:

As previously reported, the conditions of the **ANETO glacier** are especially **DANGEROUS**, due to the hardness of its ice. For this reason, it is recommended to **AVOID THE ROUTE THROUGH THE SUPERIOR PORTILLÓN** and opt for one of the alternative routes, all of them passing through the Ibón del **SALTERILLO**.

RUTA 1: Overnight at the shelter of La RENCLUSA. Shelter la Renclusa- Collado de La Renclusa. Ibón del Salterillo	RUTA 2: Besurta- Forau de Aigualluts - Ibón del Salterillo - Aneto

On all routes it is essential:

- Bring a hiking boot, ice axe, crampons (of mountain, not for slippers), helmet, long trousers, long-sleeved shirt, warm clothes and enough food and drink. Mobile phone **with charged battery**.
- **Do not go alone to the mountain**. Minimum 3 people.
- Knowing how to give up, the mountain will be always there.
- In case of any incident, call 062 or 112. Every minute is important
